The definition of satisfaction is the same in all dictionaries-but there's a big difference in store definitions. The loudest claims are from the weakest stocks. "It's not by saying honey that sweetness comes into the mouth." not by saying largest stocks-best values-lowest prices-that you get the full advantage due you. The Big Store commands the market. The people command the Big Store. We're working for greater success-but we know that it must come through your greater satisfaction. There is comfort in the knowledge, that so many forms of sickness are not due to any actual dis-ease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs. promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes interna cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its bene ficial effects, to note when you pur chase, that you have the genuine article, which is manufactured by the Cali fornia Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely ased and gives most general satisfaction. FOREIGN STOCK MARKETS. NEW YORK, September 24.-The Evening Pest's London financial cable says: The stock markets were ir-regular and rather dull to-day. The rise in prices in New York induced saies here, and the market for Americans closed practically without recovery. The fear at the moment is, that the New York account is becoming top-heavy, and inasmuch as the feeling here is still

timid, professional operators are dreading lest New York may leave them in the lurch. The money market is surprisingly easy, considering the hardening factors, such as the issue of Treasury bills next week, and the payment into the Bank week, and the payment into the Bank of England next week of the second in-stalment of money on the Japanese loan. CHICAGO, September 24.—Wheat averaged higher to-day, and closed at a 1-4c. advance for the December future. Other markets were dull and inclined to weakness, provisions having another touch of fever scare. Corn and oats closed a shade lower, while provisions showed a 71-2@15c, decline at the close.
